

REMARKS

The specification has been amended to include the ATCC deposit information. A receipt from ATCC is attached. Claims 1, 6, 22 have been amended to state the ATCC accession number. No new matter is included in these amendments.

Upon reviewing the Examiner's Amendment, Applicant noted that claim 20 appeared to contain one change in the wording from the claim language submitted in Applicant's amendment of October 20, 2004. The change noted in claim 20 was in line 2 of Applicant's Amendment of October 20, 2004 where the claim recited "metabolism" following the phrase "modified fatty acid". In the Examiner's Amendment, claim 20 recited "modified fatty acid" without "metabolism" following this phrase. Applicant spoke with the Examiner on January 19, 2005 about this change. The Examiner indicated "metabolism" should follow the phrase "modified fatty acid" and advised that Applicant present claim 20 with "metabolism" underlined and explain the change in the Remarks section of this 312 Amendment.

Applicant respectfully requests entry of the foregoing amendments to the specification and claims.
